„When I thought of going for EVS for 2 months, doing it seemed so scary for me. 2 months is such a long time, I was thinking... what if I won't like it there? But I already made a decision that I will go and I went for EVS(...)It was a really interesting thing to do; by writing articles I learned really a lot about the Chios island and by being one of the volunteers who were creating new website I learned a lot of IT stuff. So, if you are thinking about doing EVS, go for it! You will have one of the best times of your life!”

Przemek Gmerek – EVS in Greece

„Taking care of animals living on an ecological farm was my main activity during my EVS – feeding them, providing them with water, letting them out in the morning and letting them in during the afternoon(...) Besides working at the farm, I repaired the fence for goats, trimmed the hedge. All the time I was working together with other volunteers who came to Bezerra to do their EVS(...) I gained a lot of practical knowledge associated with animal care and the organization of work on a farm because of my EVS and I'm grateful for that”

Aleksandra Woszczek – EVS in Portugal

„To give a little love and attention to disabled children and to do some interesting events for local community - these were my only desires, which I managed to realize. I am happy because of it. During my EVS I was also lucky to confront challenges, look for solutions and face a teamwork. My communication skills increased significantly. I discovered new meaning of the words: involvement and respect. I have travelled around Romania and neighboring countries, meeting people from different parts of the world. Now, I would like to say thank you to everybody who made me feel so good. If you have an opportunity to do EVS project, go for it! This is an experience like no other.”

Edyta Nowak – EVS in Romania

„I went to Greece for my voluntary project during my summer holidays. I wanted to experience something interesting, to help others, share my skills and expand them. These two months were wonderful for me.

I met interesting people and of course I spent my free time on the beautiful beach! My job as the volunteer was very interesting. I learned better how to operate programs like Photoshop and Illustrator. In summary, I can recommend to go on EVS project during holidays. You will be shocked how many things can surprise YOU”

„If you like spending lots of time in the fresh air and being with nature, it will be place for you. For sure, you would learn many useful skills, which you could use in the future, for example: making cheese, sausages; making and baking bread; planting plants, cleaning garden; feeding and taking care of small and big animals (...) Portugal is the most beautiful country I have ever visited. Working in international environment will improve your relations and communication with foreigners (...)”

Magdalena Socha - EVS in Portugal

„My Greek summer started unexpectedly. Monika –always stressed person who hated almost everything landed on the island called Chios (...)

Monika, that is me, now more relaxed and happier than ever before. I’ve never thought that I could fall in love with a country as irresponsible as Greece, but I did and I am happy about that. Each person I met there helped me to understand that life is too beautiful to worry about the past or the future. Each of them filled me with positive energy and helped me with my problems. Of course they are not perfect, but no one is. One thing is certain; I will return to Greece one day and thank all the people for changing my life”

Monika Maślak – EVS in Greece

” If I have to describe my EVS in one word it will be: SURPRISE!!!

First of all, the decision about going for this project was really spontaneous. Just one day I decided to change all my life and the next day I was applying for EVS in Bulgaria!

(...) I have found real friends there, I have found everything I need to be happy. And the most important thing EVS gave me was freedom.

The kind of freedom I have never had before and probably I will never have again. I was volunteering in two orphanages, center for disabled children and center for blind people (...) EVS taught me that if you really want, everything is possible”

”(...)Why I chose Portugal is because I had heard a lot of good things about the Portuguese people and culture. I really loved the experience in the village and the nature. I had the opportunity to work with many different things during my EVS, Mainly I helped on the farm where I fed the animals on the and helped also painting the local schools in the villages. I had a chance of practicing my hobby “photography” as I took photos at festivals which were used in different articles that were published (...)”
